More info at [www.RollBackTolls.com](http://www.RollBackTolls.com)

Did you know. . . .

Do you know that MDX owns the 836, 112, Gragny, 874 and 878?

Do you know that by 2014 all these roads will be a closed system? You will not be able to get on anywhere on these roads and get back off, even 1 exit, without paying a toll.

Do you know that MDX does not report to the county or the state, but only to its bondholders?

Do you know that its board of directors are all appointed and not elected?

Are you concerned with the encroachment of MDX into the Palmetto, 826 through the 836 interchange?

Are you aware of the plans to take over the busway next to US1 from Kendall to Florida City and put tolls (US2)?

Do you know that July 17, 2010 tolls were put on 878 which never had tolls before? And, one week later, July 22<sup>nd</sup>, MDX sold bonds totaling \$412 million dollars.

**Not outraged yet? We are! Where does it stop? It stops right here?  
Join us November 8<sup>th</sup>. Fill the house. Make noise. Get involved. This  
is your RollBackTolls.com Join us!!!**
